

PRACTITIONER CERTIFICATION PROGRAM

Become *The Coaching Maps* Certified Practitioner
Discover an interactive tool and its unique methodology
Add a new quality to your business

THE
COACHING MAPS

Are you looking for a tool that introduces safe rules into your professional actions and a feeling of comfort to your clients?

You have just found it!

Working with *The Coaching Maps* guarantees your clients intimacy, discretion, and a possibility to keep any details unrevealed, letting them share only results of their reflections.

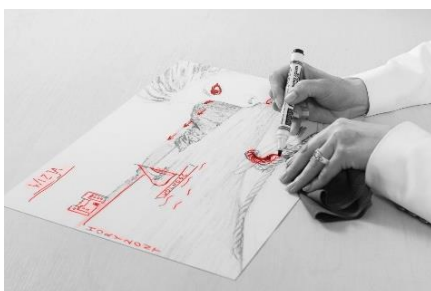

WHAT IS THE CERTIFICATION PROGRAM ABOUT?

The Certification Program is a two-day workshop that concentrates around expressing yourself, outlining your individuality, defining the obvious and accepting complexity of life.

You will master a methodology of working with *The Coaching Maps*, which roots in visual ethnography, hermeneutics, ethnomethodology, and post-structuralism.

You will learn a way of work in which the impossible becomes possible, that is when a person can reveal himself fully within a Coaching Map space, being, at the same time, entirely invisible for the others.

As a Certified Practitioner you will teach other professionals how to use *The Coaching Maps* during individual sessions and group work tasks.

WE INVITE PEOPLE WHO:

- use high standards of methodological knowledge in their trainings and workshops, both during individual sessions and group work activities
 - appreciate qualitative methodology
- prefer visual tools and picture approach to display reality
 - are open and in need of new knowledge
 - want to stand out in market
- look for ideas to enrich their working methods

BENEFITS FOR CERTIFIED PRACTITIONERS

KNOW-HOW

You will have an access to applied knowledge, based on the latest researches in social studies (sociology, anthropology of economy, pedagogy, management sciences).

NEW QUALITY

You will master a unique methodology based on ethnography, socio-cultural anthropology, learning and teaching, tutoring.

TOP QUALITY TOOL

An exclusive and elegant set. All elements are laminated, therefore you can frequently draw or write on the Maps, erase the content when you wish, and use it again.

TRANSNATIONAL NETWORK

You will be connected to a network of knowledge, information, ideas and values that go beyond, through and across countries, nations, social groups.
